PROFESSIONAL SUMMARY

Full-Stack and Mobile Software Engineer with **1+ year of professional and freelance experience** building and shipping production web and mobile applications using **React, Next.js, React Native, Node.js, Firebase, Supabase, and MongoDB**. Experienced in end-to-end product development, scalable mobile architecture, performance optimization, authentication, RBAC, payments, offline-first data persistence, real-time systems, and production deployments.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, SQL
Frontend and Mobile: React.js, Next.js, React Native, Expo, HTML5, CSS3, Tailwind CSS
Backend and APIs: Node.js, Express.js, REST APIs, JWT/OTP Authentication, RBAC, Webhooks
Databases and Cloud: MongoDB, MySQL, Firebase (Auth, Firestore, Functions), Supabase, Vercel
Tools and Integrations: Git, GitHub, Postman, Docker, Android Studio, MMKV, TanStack Query, Shopify FlashList, Razorpay, Cashfree, Push Notifications

PROFESSIONAL EXPERIENCE

Full Stack Software Engineer (Contract) | **Zebrold IHL** Remote | Mar 2026 – Sep 2026

- Developed and delivered **2 end-to-end production platforms** using **React, Next.js, Firebase, and Supabase**, owning frontend development, authentication, database workflows, dashboards, and integrations.
- Built **Instructis**, an education management platform supporting students, faculty, course assignments, class scheduling, assessments, results, and secure course-based access to dynamically generated Google Meet sessions.
- Built **ConsultYourDoctor**, a healthcare platform with **RBAC across 6 user roles**, OTP authentication, appointment booking, doctor scheduling, prescriptions, patient check-in, diagnostic reports, revenue tracking, and role-specific dashboards.

Freelance Software Engineer | **Selected Client Projects** Remote | 2024 – 2026

- **Chai Cafeteria:** Architected and deployed an end-to-end food delivery platform with React Native, backend services, admin panel, real-time inventory and order workflows, RBAC, Razorpay integration, and Google Play production release.
- **GLD Institution:** Architected an **end-to-end educational mobile platform** featuring payment integration, HD video streaming, course purchases, downloadable notes, push notifications, and role-based content management for students and administrators.
- Engineered a **high-performance React Native architecture** using **MMKV, TanStack Query, and query-sync-storage-persister**, reducing redundant API calls by ~**40%** and enabling sub-millisecond local data retrieval for an offline-first experience.
- Optimized large-list rendering by migrating to **Shopify FlashList**, eliminating blank states and maintaining consistent **60 FPS** scrolling while rendering complex lists of **1,000+ course items**.

PROJECTS

Pashu Raksha Google Play | GitHub May 2026
React Native, Expo, Node.js, Express.js, MongoDB

- Built and published an animal-rescue platform with GPS-based incident reporting, secure authentication, real-time NGO response workflows, rescue tracking, and verified-organization management.

Trip Genius Google Play | GitHub Jun – Jul 2025
React Native, Expo, Gemini API, Firebase

- Built and published an AI travel application using the Gemini API to generate personalized itineraries, with Google OAuth and Firestore-based cross-device data persistence.

EDUCATION

Bachelor of Computer Applications (BCA) Sep 2023 – Jun 2026
Institute of Information Technology and Management (IITM), New Delhi

ACHIEVEMENTS AND LEADERSHIP

- **Production Engineering:** Delivered multiple client and production systems and published 4 mobile applications to Google Play.
- **Athletics:** State-level Kabaddi player with five years of competitive experience.
